WinGrodan 2/Swimify users should now use support.swimify.com

2024-02-27 - Erik Fornander - Comments (0) - General

WinGrodan 2/Swimify users should start using using https://support.swimify.com to download the software and also to get support for the software instead of using this site support.iccmediasport.com.

In the future you will not be able to download WinGrodan 2/Swimify software from support.iccmediasport.com.

The sites support.swimify.com and support.iccmediasport.com uses the same user system so you should have the same login when you go to support.swimify.com as you do on support.iccmediasport.com.

If you do not remember your login and password for our support sites then you can click the link called “Need a password reminder?“ as seen in the image below.
